Subject: Response to written comments from our face-to-face meeting

Hi John,

So sorry for the delayed response. I was out sick, but wanted to get you EPA's response to your comments as soon as possible. I have not received all comments from the technical staff, so you may receive other comments from those guys, but this is what we have so far.

- Please add page numbers to your submitted workplan.
- Please change the EPA contacts to the following on your submitted workplan
 - o PCBs- Ongoing PMP Management- Bill Richardson
 - o Nutrients- Nutrient Monitoring in Tidal Tributaries- Bill Richardson, Mark Barath
 - o Spectral Analyzers for Nitrate- Bill Richardson, KL Lai
 - o Upper Estuary Primary Productivity Measurements- Bill Richardson, Mark Barath, KL Lai
 - o Schuylkill River Nutrient Monitoring- Mark Barath, KL Lai
 - o DE Estuary Enhanced Light Extinction Data- Mark Barath, KL Lai
- Please provide a brief hydrodynamic modeling report for the 2018 grant cycle
- Please update the Nutrient Criteria Plan by 11/30/17
- Please be sure to let Evelyn know when you upload any data to your website

In addition, it is actually past time for you to submit your progress report for the current grant. I haven't reminded you guys of this because we have been working on the workplan discussed above, but please get us your progress report as soon as possible. I'd like to send it around to the technical guys so that they can comment, and we can get a joint evaluation call or meeting set up soon. Please let me know if you have any questions.

Thanks so much for all your help.

Kim
